

TOWN OF  
**Poolesville**  
MARYLAND

**FY 2018 Close-Out**

Adopted August 6, 2018

# **THE TOWN OF POOLESVILLE**

## **FY 2018 Close-Out**

### **Executive Summary**

Adopted 8/6/2018

Printed: 7-Aug-18

The Town of Poolesville's Annual Budget is the most important document the Town produces. It outlines the Town's spending plan and priorities for the fiscal year, which runs from July 1st to June 30th. Each year, the Town's budget is developed in conjunction with the Commission President, Town Manager and all Town departments. The Commissioners of Poolesville are pleased to present to you the FY 2018 Budget Close-Out.

The General Fund revenue for the fiscal year that ended June 30, 2018 grew 5% above FY2017 figures. The increase was realized in small amounts in several accounts. Income Tax, which typically shows growth, decreased below budgeted expectations. General Fund expenditures decreased nearly 2% from FY2017 figures, which resulted in a Net Operating Balance of \$303,019.

The Water and Wastewater Fund experienced significant improvements in supporting its own operations. A grant of \$15,800 was required to balance the fund. While revenues exceeded expectations, expenditure overages were due to sludge disposal, chemicals and electricity.

The adopted budget for the new fiscal year that began July 1, 2018 includes General Fund Revenue growth that is consistent with the actual revenues seen in this year-end report.

During the year, the following amendments were adopted:

Account # 2010

- Budget amendment 2/20/2018, allocated \$25,000 of Public Facility Impact Fees to fund the Town Hall LED sign.

Account #2025

- During the FY2019 Budget process allocated \$25,000 from unrestricted funds towards the PHS multi-use campaign.

Account # 2035

- Budget amendment 2/20/2018, allocated \$20,5000 of unrestricted funds towards the Whalen path replacement project.

Account # 3130

- During the FY2019 Budget process, allocated \$20,000 towards the Well 7 & 9 alpha media replacement.

Account # 3150

- During the FY2019 Budget process, canceled the WWTP filter refurbishment and transferred the \$20,000 to the Well 7 & 9 alpha media replacement.

A detailed breakdown of the 2018 fiscal year close-out can be found in the accompanying report. The Administration has continued to execute the annual Town budget that is not only fiscally conservative but also continues to move the Town forward to achieve the Goals and Objectives of the Commissioners.

***D. Wade Yost***  
Town Manager

Restricted Funds	220,050	220,050	220,050	220,050
<b>Total Financial Reserves On-Hand</b>	<b><u>\$3,190,961</u></b>	<b><u>\$3,113,516</u></b>	<b><u>\$4,197,999</u></b>	<b><u>\$4,355,380</u></b>

**Notes**

[1] Part 2[a] of Poolesville's Financial reserves is summarized from Page 2; see that page for details.

[2] Unspent Funding for Capital Projects may include Impact Fees, Grants, and Restricted Funds. See the section on Capital Projects for details.

[3] Unrestricted General Fund Reserves for Part 2[b] is based on the budget and the Close-Out projections from Part 1[b] above.

[4] Water & Wastewater Fund Balances in Part 2[b] are based on the current budget operating balance projection being constant over the next 4 years.

**Notes**

- [1] The Chesapeake Bay Restoration Fund is a mandated program instituted by the State of Maryland. By law, the Town is required to collect \$15.00 per quarter on each water and wastewater bill issued.
- [2] Fee levied against new connections to the water/sewer system that are not part of the Impact Fee schedule. Funds collected supplement the Inflow and Infiltration loan debt service payment that funded the increased capacity.
- [3] Funds collected in lieu of parkland dedication.
- [4] Funds collected during events and used to supplement future events.
- [5] Funds earmarked to support the proposed Grape Crush Facility.
- [6] Funds collected in lieu of forest conservation.
- [7] Revenue sharing with Montgomery County
- [8] Kettler Proffer, \$1,250 per household used to supplement Inflow and Infiltration Loan debt service payment.

# THE TOWN OF POOLSVILLE

## FY 2018 Close-Out

### OVERVIEW - Budgets and Taxes

Adopted 8/6/2018

Printed: 7-Aug-18

As shown by the chart on the right, Poolesville's revenue comes from six major sources and many smaller ones. In addition, revenue may be received from Impact Fees and State Grants for specific projects. Those are highlighted in the appropriate areas of this Budget.

The curves below track the application of these funds for this fiscal year as well as the past 5 years. Projections and Reserves are also shown for the next 3 years. The charts on the bottom highlight the Town's assessable tax base over the same period and also reviews the property tax rate for the past 5 years.

# THE TOWN OF POOLSVILLE

## FY 2018 Close-Out

### OVERVIEW - Town Population and Public Infrastructure

Adopted 8/6/2018

Printed: 7-Aug-18

The population chart reflects the 2010 Census results of 4,883 and an updated 2016 Maryland State Planning Data report of 5,190. Future growth projections are calculated using 20 houses per year, with 3.2 persons per household. The population target remains at 6,500 per the 2011 Master Plan.

In addition to the increase in the number of homes that will occur, over the next several years, the miles of Town streets used by our residents and maintained by Town staff will increase. Likewise, the acreage of Town parks and recreational areas will also increase. With the developer parkland dedication requirements, developed recreational areas will increase to over 65 acres as depicted on the chart below.

As the Town has grown, personnel and equipment needs have been proactively addressed to accommodate the future requirements of the parks, road maintenance, wells and wastewater treatment.

**Notes**

- [1] There are no outstanding loans for General Fund Capital Projects.
- [2] The WWTP Expansion and Upgrade loan was based on the expansion portion of the construction. As Impact Fees are collected, they are be applied towards the loan.
- [3] The Wesmond Inflow & Infiltration (I&I) loan facilitated the completion the relining efforts in the Wesmond Subdivision. Proffers from developers are allocated towards this loan.
- [4] The Westerly Inflow and Infiltration (I&I) loan provided a complete reline of main sewer lines and the relining and installation of clean-out on the public side of each lateral. Connection Fees are applied to this loan.

**Notes**

- [1] The General Fund Summary is divided into two parts:  
 \* The upper section presents the status of the Operating Account, including yearly revenue, allocations for Capital Projects, the Annual Operating Balance, Unrestricted Funds carried forward, and finally, the Unrestricted Funds Close-Out Balance for the year. Included in the summary is the application of any excess Cash Reserves into the budget year.  
 \* The Commissioners will maintain unrestricted reserves at 17.5% of the budgeted general revenue.
- [2] The lower section summarizes the activity in the General Fund Capital Projects Account, including funds carried forward, new funding from the Operating Account, and funding from other sources, all summarized in the total funds available for General Capital Projects. Actual or Planned Capital Spending is shown, ending in the Funding Balance for Capital Projects.
- [3] In addition to cash assets, the Town owns several pieces of real property:
- |   |  |
|---|--|
| <b>Buildings and Municipal Facilities</b> | <b>Parks and Recreational Facilities</b> |
| Town Hall                                 | Stevens Park                             |

**Account Descriptions**

- 111 Property Taxes cover both commercial and residential properties at \$0.1756 per \$100 of assessed valuation..
- 112 Personal Property Tax for Unincorporated businesses in Poolesville.
- 113/114 These are Personal Property Tax accounts: 113 for Public Utilities (Verizon, Washington Gas), and 114 for other corporations in Poolesville
- 311.4 Covers the Tax Duplication formula with the County and is based on the miles of Town roads.
- 330.5 Covers bank shares and comes from Montgomery County, the same every year.
- 360.1 Revenue is based on a State formula, Poolesville receives 17% of income tax collected within the corporate limits.  
Over 9 quarters, the town will repay the State for income tax received per the Wynne Case.
- 156 The State computes this amount based on the miles of Town roads and the vehicles registered in Town by residents.
- 222 Franchise Fees includes Comcast Cable TV, Verizon and a portion of the business licenses granted by the County.
- 121 Interest earned on the General Fund savings account and our account with the County's Investment Fund.
- 412 Zoning applications and Development fees for new subdivisions are offset by Expense Acct. 1210.
- 462 Includes the rental of space on the Water Tower to Sprint, Verizon, AT&T and T-Mobile.
- 480 Fees charged for participants in the Summer Recreation Program.

**Account Descriptions**

The Major Account Group 1000 covers all costs associated with the general maintenance and repair of all Town streets, storm water systems, street signs, street lighting, truck expenses, as well as the cost supplies and specific expenses for snow removal (note that Town staff salaries, including overtime, for snow removal, are included in Account Group 700).

- 1050 This account includes minor repair and maintenance to roads following water main breaks and other road surface failures with gravel and cold patch. Permanent repairs are completed when major resurfacing projects are scheduled as identified in the Capital Projects section of this Budget.
- 1055 Included in this account are the costs for the cleaning of, and minor repairs to, storm drain inlets and pipes. Again, major work items are included in the Capital Projects section of this Budget.
- 1060 This account covers the installation of new street signs, and the repair/replacement of older signs, as may be required.
- 1065 The operation of the Town's r  
Power, including maintenance and electric cost.
- 1070 Included in this account is the cost of salt, and other materials that may be spread on Town roads, as may be required during snow/ice events. It also includes the cost of special items that may be needed for snow removal, as well as the cost of equipment repairs specifically due to snow removal.
- 1085 This account covers the cost of repairing and maintaining all Town sidewalks.

**Account Descriptions**

**The Major Account Group 1100 covers those expenses associated with maintaining Poolesville's parks, and the aesthetics of the Town streets. Included also are the costs of summer recreation programs. In general, major projects are included in the Capital Projects section of the Budget.**

- 1150 This includes the cost of lighting of the tennis and basketball courts at Halmos Park, and the security lights at Halmos and Stevens Parks.
- 1155 This account covers the cost of repair and maintenance of equipment in the tot lots, as well as the baseball field fences and bleachers. It also includes re-seeding the fields as necessary, annual fertilizing and weed killing treatments, gravel to repair parking lot damage, as well as mosquito control. Major projects addressing the upkeep of our recreational facilities are included in the Capital Projects section.
- 1160 This line item covers the cost of the purchasing and planting of all street trees.
- 1165 This account primarily addresses the costs for the maintenance and replacement of existing street trees and the miscellaneous purchase of shrubs and annuals.
- 1170 Included are the costs for equipment, and supplies.

**The Major Account Group 1200 covers the costs associated with the services contract with the Town Engineer for general engineering services, including attendance at Town meetings and other projects as directed by the Commissioners and/or Town Manager. It also includes the cost of services rendered for supervision of building roads, sidewalks, storm drainage systems, and other infrastructure in new subdivisions.**

- 1205 This account captures the cost of providing the services described above, other than costs charged directly to specific Capital Projects.
- 1210 Some of the costs in this account are offset by the receipt of developer fees.
- 1300 This account provides funding for reports, surveys, duplicating or publishing of plans and reports specific to the duties of the Planning Commission.

**Account Descriptions**

The Major Account Group 1400 covers the activities of the Code Enforcement Officer and the Plumbing Inspector.

1425 This is a contract position established to insure enforcement of Poolesville's Code.

1435 This is a contract position covering the inspection of new connections to the municipal system and gas connections, as well as alterations to existing connections. In general, the costs in this account are offset by the permit fees in revenue account 223.

The Major Account Group 1500, Municipal Services, includes the cost associated with the Town's contract with Bates Trash Service to provide regular residential trash, yard waste and recycling pickup.

The Major Account Group 1600 is used to maintain a positive balance in the Water & Wastewater operating account. Funds are intermittently transferred on an as-needed basis at the direction of the Town Manager, with the cognizance of the Commissioners. Funds for Water & Wastewater Capital Projects are funded separately by the General Fund as part of the Town's overall Capital Projects program, and are identified elsewhere in this Budget.

The Major Account Group 1700 covers the repayment of loans incurred for past Capital Projects. The details of the current outstanding loans are found on page 6. The Commissioners have adopted a policy that all Capital Projects, both General Fund and Water/Wastewater Fund are paid for by General Revenues.

**Notes**

- [1] This page summarizes the seven Capital Projects accounts associated with General Fund capital expenditures. The summary is divided into three sections as follows:
- \* The top part of the page summarizes the costs of the various projects and the overall funding streams developed to implement those projects. Also included in the top section is a summary of all special funding available to augment the regular General Funding. The bottom line in the top section, Acct. 2000, subtracts the special funding and identifies the Net Amount which has been, or will be, funded from General Fund Revenues.
  - \* The middle part of the page summarizes the programmed expenditures of the funds to accomplish the various capital projects.
  - \* The bottom part of the page reflect the remaining balances in each of the accounts at the end of each Fiscal Year.
- [2] See the following Capital Account pages for detailed information.

**Notes**

**Shading key in Table: FY 18 Expenditures/Closed Projects** Budgeting, Planned Expenditures for this Budget Year

The indicated funding balances for closed/completed projects are transferred to the Carry-Over Funds in the year following closure.

**Project Definitions**

2010 The Municipal Buildings Account covers the major maintenance of, and additions to, existing Town properties.

1 The addition will provide additional equipment storage for Parks Department.

2 The Historic Methodist Church (Thrift Shop) maintenance fund.

3 Funds for a multi use facility to be constructed in-conjunction with the new high school.

4 Interior caulking, painting and carpet replacement/exterior painting.

5 Replacement of existing metal doors. FY17 Rear Doors, FY 20 Front.

6 New storage building to house event equipment, event signs and banners.

7 Replacement of existing fence around maintenance facility.

8 New storage building to house back-hoe, sewer jet and generators.

9 Replacement of existing information sign.

10 Used for loading project spoils.

**Notes**

Shading key in Table: **FY 18 Expenditures/Closed Projects** Budgeting, Planned Expenditures for this Budget Year

The indicated funding balances for closed/completed projects are transferred to the Carry-Over Funds in the year following closure.

2015 This account covers the expenses for capital improvements to existing streets and parks infrastructure and for specific equipment.

**Project was funded with excess funding from completed projects.**

- 1 Replacement of existing equipment
- 2 New equipment for emergency and evening event uses
- 3 This mower will replace the 2008 72" mower
- 4 This mower will replace the 2006 HR111 Jacobson
- 5 This will replace the 2002 skid loader
- 6 This mower will be a new addition
- 7 Replacement for existing club cart
- 8 This will replace the 2003 JCB Backhoe
- 9 New equipment for trench and minor excavations
- 10 This mower will replace the 2011 72" mower
- 11 This equipment will replace the 2008 Mule
- 12 This mower will replace the 2013 72" mower
- 13 This mower will replace the 2013 HR111 Jacobson
- 14 Light replacement/repair...no new additions

- Mowers**
- 1989 Kubota L2250 (field use)
  - 2006 HR111 Jacobson (mower)
  - 2008 Kubota ZD21 (mower)
  - 2011 Kubota ZD21 (mower)
  - 2013 Kubota ZD21 (mower)
  - 2013 HR111 Jacobson (mower)
  - 2015 72" Mower/Blower

- Heavy Equipment**
- 2003 JCB Backhoe
  - 2002 Skid Loader
  - 2008 tractor w/mower boom
  - 2008 Mule (multi-use)

**Notes**

**Shading key in Table: FY 18 Expenditures/Closed Projects Budgeting, Planned Expenditures for this Budget Year**

The indicated funding balances for closed/completed projects are transferred to the Carry-Over Funds in the year following closure.

**2040 Major Street Repair Projects address the need to maintain, repair and resurface Town streets.**

All Town roads were evaluated and prioritized in 2016. Estimates in the out years reflect a 3% annual increase each year.

Speed humps may be added to increase speed awareness in residential areas.

**Notes**

- [1] The Water and Wastewater Fund Summary is divided into two parts:
- \* The upper section presents the status of the Operating Account, including yearly revenue, allocations for Capital Projects, the Annual Operating Balance, Unrestricted Funds carried forward, and finally, the Unrestricted Funds Close-Out Balance for the year. Note that the Water and Wastewater Fund Capital Projects are funded by the General Fund, as W&WW revenues are used to cover the Operating Expenses.
  - \* The lower section summarizes the activity in the Water & Wastewater Fund Capital Projects Account, including funds carried forward, new funding from the Operating Account, and funding from other sources (including Granted General Funds), all summarized in the total funds available for Water & Wastewater Capital Projects. Actual or Planned Capital Spending is shown, ending in the Funding Balance for Capital Projects.
  - \* In an effort to maintain the Water and Wastewater funds as an Enterprise Fund, rates will be raised to fund these operations. As always a critical eye is on spending. However, many of the costs associated with the operations, such as electricity, chemicals and fuel are fixed and are reduced or maintained as much as possible. Over the past years, grants have been received for the installation of variable drive motor controllers and lighting upgrades to reduce electrical demands.

**Account Descriptions**

**The Major Account Group 700 covers all direct expenses associated with the administration, operation and maintenance of the Wastewater System, including outside contracts, utility costs, water and sewer supplies, and maintenance and repair costs.**

- 701 This account pays for the sludge hauling to landfills and periodic permit sludge testing.
- 702 This account covers sample analysis from outside labs.
- 703 This account covers the electricity of the whole compound, and 7 sewerage pumping stations are included in this account.
- 705 This account is for chemicals used in the treatment of the wastewater.
- 707 This account is for minor building maintenance.
- 708 This account covers in house lab testing supplies and minor test equipment.
- 709 This account covers small tools specific to wastewater system work.
- 710 This account covers parts and direct costs associated with maintaining the Wastewater Treatment Plant.
- 711 This account funds the annual replacement of the ultra violet disinfection lamps.
- 712 This account covers minor repairs and general maintenance of the sewer piping systems and various pump stations.
- 755 This account covers salaries for field staff.
- 757 This account pays for the portion attributed for office staff.
- 761 This account pays for employee uniforms, t-shirts, sweatshirts and safety boots.
- 763 This account pay a portion of the accounting fees.
- 765 This account pays for legal fees connected with the system.
- 771 This account pays for office supplies connected with the system.
- 773 This pays for phone bills connected with the system.
- 775 This account pays for wastewater properties, such as the plant and pump stations.
- 781 This account covers a proportionate share of the total cost.
- 783 This account pays a proportionate share of truck operations.

**The Major Account Group 750 covers all direct expenses associated with the administration of the Wastewater System, including full salary burden, personnel costs, office operation, all insurance, and truck operations.**

**Account Descriptions**

**The Major Account Group 800 covers all direct expenses associated with operation and maintenance of the Town's water system.**

- 801 This account covers the costs of all laboratory supplies and expenses, and test equipment, for the Town's municipal water system.
- 802 This account covers the cost of all consumable supplies and replenishable hardware supplies for the Water & Wastewater systems.
- 805 Electricity consumed at the various well sites (11).
- 806 The chlorine added to the municipal water supply is included in this account.
- 807 Included in this account is the cost of minor repairs and maintenance to the water system, as accomplished by Town staff.
- 809 This account covers small tools specific to water system work.

**The Major Account Group 850 covers all direct expenses associated with the administration of the Water System, including full salary burden, personnel costs, office operation, all insurance, and truck operations. Acct descriptions are similar for 750's and 850's.**

- 855 General Fund Account 755 allocates the total salary burden for Water/Wastewater employees, which is then included here.
- 857 Likewise, the allocated share of Town Hall staff is calculated in GF Accts 760 & 765 and included here.
- 859 Cost of Bonding for Deputy Clerk who handles water billing and payments received.
- 861 This accounts cover the cost of Town uniforms and training for water employees respectively.
- 863 This account represent the costs for applicable accounting.
- 871 This account cover the costs of office supplies for water dept. functions including water billing costs.
- 873 This account include telephone service, including emergency notification systems, at all well houses.
- 875 This account cover the cost of property insurance for all parts of the water infrastructure.
- 881/883 The cost of truck insurance, gasoline, repairs, parts, etc., is included here for water trucks.

**Notes**

[1] This page summarizes the five Capital Projects accounts associated with Water & Wastewater Fund capital expenditures. The summary is divided into three sections as follows:

- \* The top part of the page summarizes the costs of the various projects and the overall funding streams developed to implement those projects. Also included in the top section is a summary of all special funding available to augment the regular Funding Grant from the General Fund. The bottom line in the top section, Acct. 3000, subtracts the special funding and identifies the Net Amount which has been, or will be, funded by means of a Capital Projects Grant from the General Fund Revenues.
- \* The middle part of the page summarizes the programmed expenditures of the funds to accomplish the various capital projects.
- \* The bottom part of the page reflect the remaining balances in each of the accounts at the end of each Fiscal Year.

[2] See the following Capital Account pages for detailed information.

**Notes**

**Shading key in Table: FY 18 Expenditures/Closed Projects Budgeting, Planned Expenditures for this Budget Year**

*The indicated funding balances for closed/completed projects are transferred to the Carry-Over Funds in the year following closure.*

**3130 This account covers all aspects of expanding and improving the Town's water collection and distribution system.**

- 1 This category provides for the replacement or major rebuild of pumps and major components.
- 2 This project provides for the replacement of old and poorly operating water main valves.
- 3 Well implementation includes final permitting and ongoing monitoring required by MDE.
- 4 This well will provide redundancy and back-up to the other wells in the Horsepen Branch watershed.
- 5 Wells 7, 9 & 10 treatment system media is replaced on a five-year cycle.
- 6 Recoating the interior of the 500K Water Tank.
- 7 Replacement of valves and components.
- 8 Markers for hydrants during heavy snows
- 9 Recoating the exterior of the 500K Water Tank.
- 10 Well Funded through Developer and Impact Fee Funds. Part of the Westerly 7 Subdivision.
- 11 Future well funded by the developers through Impact Fees.

The indicated funding balances for closed/completed projects are transferred to the Carry-Over Funds in the year following closure.

[1] Committed funds may be reallocated, based on final incurred costs of completed projects, and/or revised priorities and needs.

**3167 This account includes all of the miscellaneous capital costs associated with the operation of the Town's Water & Wastewater Systems.**

- 1 Replacement of miscellaneous equipment.
- 2 This line item provides for water meters for replacements and new installations.
- 3 Replace and upgrade process control testing equipment.
- 4 Replace outdated communications for entire water system.
- 5 Replacement of original WWTP Equipment.
- 6 New equipment to monitor lagoon discharge required by MDE.
- 7 Monitor and emergency notification system.
- 8 Monitor and emergency notification system.
- 9 Upgrade outdoor fixtures
- 10 Replacement of original equipment.
- 11 Replacement of original equipment.

**Notes**

**Shading key in Table: FY 18 Expenditures/Closed Projects Budgeting, Planned Expenditures for this Budget Year**

The indicated funding balances for closed/completed projects are transferred to the Carry-Over Funds in the year following closure.

**3170 General Infrastructure Programs, which do not "fit" into other Water & Wastewater Accounts, are tracked in this Account.**

This program will provide funding for large unanticipated infrastructure repairs and total water line section replacements in the future.

# THE TOWN OF POOLSVILLE

## FY 2018 Close-Out

### TOWN STATISTICS

Adopted 8/6/2018

Printed: 7-Aug-18
